

• CONTROLS VARIOUS TYPES OF FIRES

- A** Solid Combustibles **B** Flammable Liquids **C** Gaseous
E Electrical **F** Cooking Oils and Fats

Fireguard is the only Fire Extinguisher in its class to have the capability of extinguishing all types of fires.

4

• EASY TO USE

You can activate Fireguard instantly, to extinguish fire before it spreads.

5

• ABSOLUTELY SAFE

Fireguard does not explode even amidst flames. Its emission is non-toxic. Fireguard does not leave behind any residue, so there is no resulting damage to your physical assets.

6

• LIGHT IN WEIGHT

Fireguard weighs less than 300 grams. With jet emission time of up to 50 seconds, Fireguard is truly powerful against a start-up fire.

7

• DIRECTIONS FOR USE

Hold by the handle, remove and discard the top protection cap.

Remove the bottom end cap from the lower part of the handle.

With the inner part, strike the black tip to ignite. Discharge begins immediately. Point the aerosol jet towards the base of the flames.

To arm your organisation with Fireguard, call Eureka Forbes right now. Any later might just be too late.
