

\*\*CIS is a subsidized service, which is only free for the first year. It requires a PSTN connection.

\*All Protection Sensors are not part of the standard packaging and need to be installed at an additional cost.

### PROTECTION SENSORS

#### MOTION SENSORS

The Motion Sensors detect movement in the protected areas.

#### MAGNETIC CONTACTS

Magnetic contacts are door position sensors, which can be installed on doors, windows, cupboards, air-conditioner ducts, safes and rolling shutters.

#### GAS LEAK DETECTOR

This detector senses LPG leaks and potential fire hazards. It sends out an alarm before they turn unmanageable.

#### EMERGENCY SWITCH

This switch alerts the Central Monitoring Station in an emergency and can send the police, fire department or medical services to the rescue.

#### SMOKE DETECTOR

Detects fires and alerts occupants.

#### GLASS BREAK DETECTOR

Detects the sound of breaking glass. Each detector has the advantage of being able to cover a number of glass panes simultaneously.

#### KEY FOB\*\*\*

For arming and disarming the wireless panel.

#### SHOCK-SENSOR

It picks up shock vibrations and sends an alarm if an intruder attempts to drill through the wall.

#### REPEATER

The Repeater acts as a signal booster in areas where the signal is weak.

Products and specifications might change without prior notice.
